Subject: SI and H Experimentation, 18 March 1952

On Tuesday, 18 March 1952, SI and H experiments were carried on in Room 20, Building 13, with Misses [redacted] and [redacted]

A

The entire evening was devoted to the taking of motion pictures illustrating normal movement for the training film.

These movies were repeat shots of previously taken film that did not satisfy [redacted] and the writer based primarily on lighting devices. It is believed that these shots will be better and more clearly illustrate the sequences.
